#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 02/25764.

The reference discloses sulfonated polymers, including polysulfones, can be formed into membranes that may be used in proton exchange membrane fuel cells or as ion exchange membranes in the presence of heteropoly acid (see Abstract).

Note that the reference further discloses the sulfonated copolymer having the claimed formula (see page 3, line 10 onto page 5, line 10 and in claims 1-8, and 32-35).

Anode and cathode must be considered inherent in the prior art in the proton exchange membrane fuel cells or as ion exchange membranes. See In re Best, 195 USPQ 430, 433 (CCPA 1977).
